Physician Referral Process →

Your doctor may have referred you to our infusion center for a specific infusion treatment. Whether you are seen by an RTANE provider or by another specialist in the community, our infusion team is looking forward to supporting your care. In addition to caring for you throughout your treatment, our team works with the other physicians on your care team to ensure the best treatment outcomes, providing them with detailed treatment reports.

Our focus is to ensure that your treatment occurs in a supportive, comfortable and safe environment.

Insurance Verification →

Before you begin therapy, a pre-certification and insurance verification process is completed to ensure that your infusion services are covered under your health plan.

Our Insurance Verification team will discuss your benefits, any out-of-pocket costs and review any questions prior to your first appointment.

Note: Our Insurance Verification team may call from an 281 or 832 area code.

Please call **(800) 932-6807** to discuss any further benefit questions. Relevant copay assistance programs may be explored. Our staff will assist you in accessing these programs if you qualify.

For billing questions after receiving your infusion services, please call our Billing team at **(800) 337-0220**.

NOTE: Alternate care options may be coordinated with your physician if needed based on your insurance coverage.

Clinical Concerns

PLEASE NOTE: For any clinical concerns about your diagnosis or symptoms in between infusions, please contact your physician's office.
